Global Laundry Parts

Alliance / IPSO Door Handles
Installation Note

For easy fit & correct installation, the door lock has to be OPEN before installing it

1. Pull up the silver colored release level.

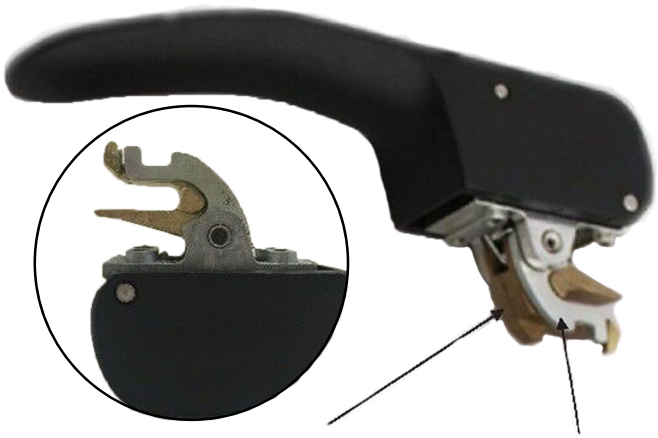
2. While the release lever is pulled up, push down the bronze colored part of
the door lock.
*(If you push on the base part of thebronze part it releases easier).

3. Door lock should open now.

Make sure to adjust the handle for the perfect fit.

This will also help it last longer and make it easier to use.

Closed



Push here (Bronze Part)

Release Lever (Silver Colored)

Open
